PRELIMINARY DIRECTORY
OF PROFESSIONALS PROMOTING
PARENT EDUCATION IN CANADA

This publication represents the initial attempt to identify parent education professionals who are actively involved in promoting, coordinating, studying or evaluating parent education, as a function of their professional work. It has been a cooperative venture between the School of Child Care, at the University of Victoria and the Health Promotion Directorate at Health and Welfare Canada.

It is hoped that this directory will serve as a useful resource for helping professionals, in both public and private organizations, exchange information and skills on a local, regional and national basis.

Appreciation is extended to all those who took the time to complete and return the survey questionnaires and to those who forwarded references.

You will find an EVALUATION QUESTIONNAIRE included in the directory to help us assess the usefulness of the directory. Follow-up activities to this preliminary directory will be based largely on your comments. A prepaid, addressed envelope is enclosed for your convenience.

Apologies are extended to any professionals promoting parent education in Canada who did not receive an initial survey questionnaire. A mailing list consisting of approximately 850 human services agencies, and relevant departments in Canadian colleges, universities and government departments/ministries was developed and used in March, 1984. Even so, many gaps have already been identified. Your assistance in further improving this list would be much appreciated. There is a section at the bottom of the EVALUATION QUESTIONNAIRE for informing us of additional contacts.

**RÉPERTOIRE PRÉLIMINAIRE
DES PROFESSIONNELS TRAVAILLANT À LA PROMOTION
DE L'ÉDUCATION DES PARENTS AU CANADA**

Il s'agit de la première tentative en vue de répertorier les professionnels en éducation des parents qui s'occupent activement dans le cadre de leur travail de la promotion, de la coordination, de l'étude ou de l'évaluation de l'éducation des parents. Cette publication est le fruit de la collaboration de la School of Child Care de l'University of Victoria et de la Direction de la promotion de la santé de Santé et Bien-être social Canada.

Nous espérons que ce répertoire sera utile aux professionnels oeuvrant au sein des organismes publics et privés et leur permettra d'échanger des renseignements et des connaissances techniques aux échelons local, régional et national.

Nous tenons à remercier toutes les personnes qui ont rempli et retourné les questionnaires d'enquête ainsi que celles qui nous ont fourni des renseignements.

Nous avons inclus par ailleurs dans le répertoire un QUESTIONNAIRE D'ÉVALUATION qui nous permettra d'évaluer l'utilité de celui-ci. Les activités qui feront suite à ce répertoire préliminaire s'inspireront largement de vos commentaires. Vous trouverez également ci-jointe une enveloppe affranchie préaddressée.

Nous présentons nos excuses aux professionnels travaillant à la promotion de l'éducation des parents au Canada qui n'ont pas reçu de questionnaire d'enquête. Nous avions dressé une liste d'envoi comprenant environ 850 organismes de services sociaux et départements concernés dans les collèges, les universités et les ministères au Canada, liste dont nous nous sommes servis en mars 1984. Nous avons déjà repéré néanmoins de nombreuses lacunes. Nous nous invitons à compléter cette liste en nous communiquant les noms d'autres personnes-ressources; une section à la fin du questionnaire a été prévue à cet effet.
